The 75-76 volleyball season wasn't the most successful season. The team did make it to the quarter-finals, only to lose out to Harry Ainlay in the fifth and deciding game, 15 - 12.

During the season, the team travelled to Saskatchewan to take part in exhibition matches. The team won several matches, and put up a good fight against U. of A. Prediction: Next Year - Better than Ever!

senior volleyball

The senior team had an extremely successful season. They maintained a high win percentage which carried them through regular season play into play-offs. In semi-final play the team defeated Harry Ainlay and then went on to capture the city championship. The team went to Calgary for the Provincials where they beat M. E. Lazerte in the finals.

The senior boys team also did well in the tournaments they entered during the season. They came second in the Salisbury tournament and first in the Saskatoon Invitational.

basketball

sr. girls'

The Bonnie Doon Senior Girls' Basketball Team had quite a successful season this year. After an unfortunate loss of their very first league game to Scona, they went on to win every succeeding game, finishing first in League A with a score of seven wins, and no losses. Then in the quarter finals after a great effort and a very close game they lost to Ross Shep by a single point. Ross Shep's senior girls then went on, eventually winning the city finals. In February, Bonnie Doon's Girls played in the Red Deer Invitational Tournament placing second after losing by a point to the Calgary Browns. Even though it was a disappointing finish to such a promising team the girls had an all-around great season.

The Bonnie Doon Lancers (alias the Bonnie Doon Lemons), spurred on by their coach, Brent "Plato" Foster, approached the season with two goals. One was to go undefeated in the geographic round, and the second was to get to the provincial finals. The first goal was accomplished, going 8-0 in the win-loss column. The Provincials were missed with a loss to Lazerte in a tight semi-final game. In tournament play we won first place in the Vic Invitational, a close second in the CAPHER, and a third in the Saskatoon, Sodbuster tournament. Graham Ganton was chosen as the M.V.P. With a final 29-10 win-loss record we can consider it a very successful year produced by an outstanding team effort.

The team also qualified 17 members to represent Edmonton in the provincial meet. It was a very successful season.

president's message

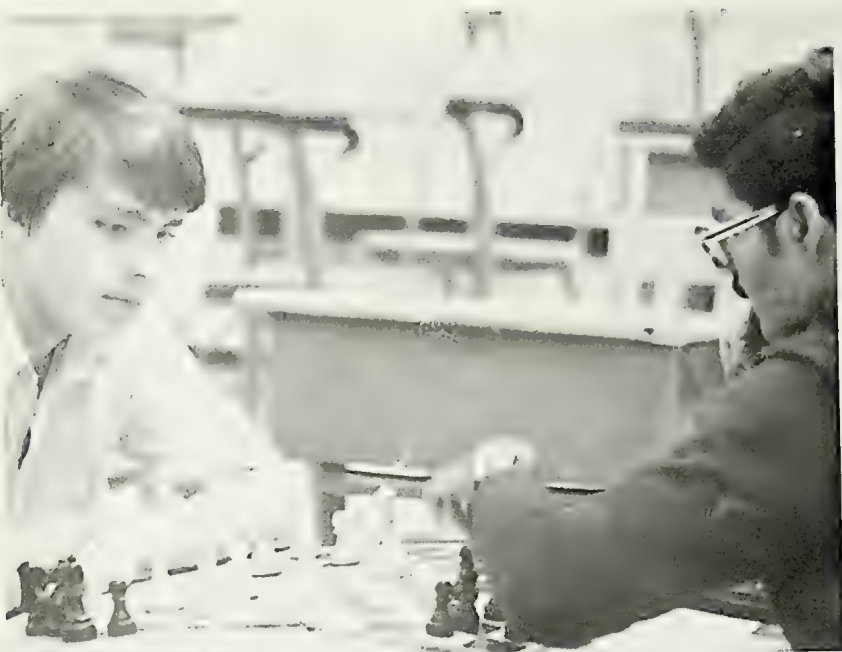

The 1976 school year has come to a close, and I'm sure members of the graduating class are looking forward to moving on to bigger and better things. To them I wish the best of luck in their endeavours and many years of happiness. To those who must remain for another year or two, I can only say have patience for once it's done, you'll find it's worth it.

On behalf of the Students' Union, I would like to thank Mr. Klufas, and Mr. Gainer for all the help they have been throughout the year. And I would like to thank the students of Bonnie Doon for making my job possible. It has been most enjoyable working with so many different people, and if only I can meet as many terrific people in the years to come, as I have at Bonnie Doon, I will be happy. Good luck to next year's executive, and once again, good luck to all the members of the Bonnie Doon Students' Union.

In every child is born, under no matter what circumstances and of no matter what parents - THE POTENTIAL OF THE HUMAN RACE IS BORN AGAIN, and in him too, once more, and of each of us our vibrant responsibility towards human life; towards the utmost idea of goodness, and of God, and of course a chance of error.

TRUTH IS THE KEY. Can we spur our students to creative heights and provide every student with experience of success? Our dream of mobility to the crippled, illumination of the dark world to the blind, bring the deaf into common with hearing, solace to the disordered, and of course make all men equal in dignity if not equal in creativity.

If we as teachers and parents love this dream I am sure that our young ladies and gentlemen will make it come to pass. I am sure that they will add new dreams for the new generations to fulfill.

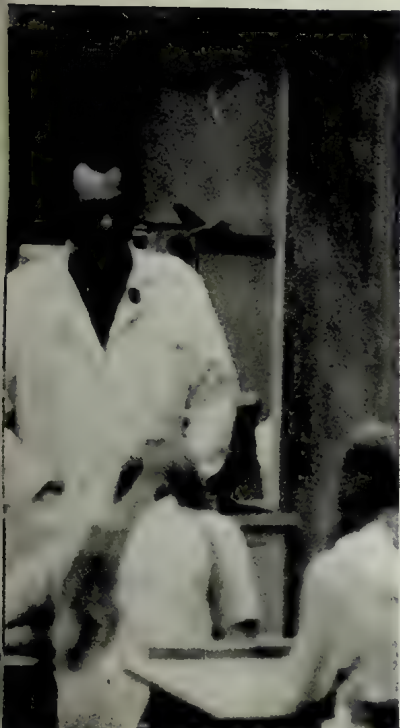

The errors referred to earlier are always lurking but if each individual believes in self, or dearly believes that people do not exist to create a backdrop for leaders - to applaud - to chant hurrah - to quack with pleasure when richer fodder is poured into their trough - I am convinced that the legacy that we as teachers and parents leave for the leaders of tomorrow, is viable.

class historian

Everyone has his own history of the past three years at Bonnie Doon, that place in front of the fun and games at our favorite shopping center. The year 1973, Frosh, if you'd care to call it that. What a time, remember? Our football team performed miracles. They managed to make the city finals but dared to lose. The volleyball and basketball teams on the other hand were much more miraculous for they won everything in sight. School dances were the rage, everyone showed up. The year came to a close with a barn dance which was the biggest beer bash this city has ever seen. The year 1974 came in too fast for the summer holidays were just far too short. We were looking forward to seeing all the new frosh. Frosh days came on in the same way as the year before and ended the same way. By this time, however, the football season was going strong. Our roaring Lancers were ready to take on the world. They started the season on a winning streak and ended "We're Number One". We mustn't forget the volleyball team and Brent's Broad Squad. Weren't they gorgeous? With such a cheering section how could we help but win. The basketball team, they did pretty well, too, but not really Harlem Globetrotter caliber. Dances at school that year were lively entertainment. The Frosh showed us how to really live it up.

We must be serious though for a few moments and give praise to our school choir and band for they brought honor to the school in their performances.

The year 1975-76. WE MADE IT GANG! Never thought we would but what a struggle to get here. Remember all those frosh we were going to get revenge on? Well, Kangaroo Kourt didn't quite make it. Again, our mighty Lancers tried, sure winners, they thought. Oh, well, C'est la vie. Better luck next year. This was the year for the volleyball team. Win, win, win was their motto. Basketball, fellows, let's face it, you gave your best but best was not quite good enough.

This was also the year we forgot about the shopping center and invented a new class "Bar 30" which wasn't bad if you didn't get caught in one. But the year draws to a close and so do my remarks. Before I leave you though, many thanks are due to those who have tried to make our years at Bonnie Doon Composite High worth while, our teachers, our parents, and our friends. They have all helped us to become, we hope, the young people who will find their place in the world along the LONG AND WINDING ROAD.

Bill Wiley, 1976

Tonight as valedictorian, it is my honour to present to my fellow graduands a few parting words of wisdom before they complete their twelfth and formost final year of formal education.

As the words of this year's graduation theme may well suggest, these past twelve years can truly be likened to a long and winding road. The passing of each day was like the rounding of another bend in the road, never really knowing what you would find waiting for you. You may have sometimes rounded a bend and found a clear path ahead of you, posing no problems or difficulties. But on the other hand, you may have been called upon to overcome some great obstacle lying in your path; just waiting for a chance to trip you up. Some people were able to overcome these obstacles quite easily, but others were not so lucky. Some people found themselves flat on their faces. If you ever find yourself in this position, don't ever lie there and admit defeat. The only thing to do is pick yourself up and continue on down the read. Right from the very first day of school, way back in grade one, I'm sure everybody had run into a great number of these obstacles. As you look back on them now, I'm sure they all seem to be quite insignificant to you. I'd have to disagree with you. I think that all these obstacles, may they have been large or small, were all experiences. The graduation theme suggests that this long and winding road leads to your door. But what lies beyond this door? I feel that this door leads to success, and if you can fully utilize the knowledge and wisdom gained from all your experiences in life, you should have no problem in finding your door to success. You may well ask "How do I know when I have found my door to success?" The meaning of success varies with each individual. To some, success may mean great wealth, driving around in a Rolls Royce, and dwelling in a mansion. To others, though, to succeed may mean to have made it through another day and to have been able to come home with something for the family to eat that night.

I think Ralph W. Emerson states the meaning of success quite well in these words: "To laugh often and much; to win the respect of intelligent people and the affection of children; to earn the appreciation of honest critics and endure the betrayal of false friends; to appreciate beauty; to find the best in others; to leave the world a bit better, whether by a healthy child, a garden parch, or a redeemed social condition; to know even one life has breathed easier because you lived. This is to have succeeded."
